The National Wildlife Refuge Association recently released "Silent Invasions," a report on the impact of invasive species on national wildlife refuges. The report profiles the "Dirty Dozen" invasive species and shows how 12 diverse refuges are working to address this ecological crisis. To view the 18-page report, visit www.refugenet.org.

The Pennsylvania Biodiversity Listserv encourages open discussion about biodiversity issues in the state. It is hosted by the Allegheny Institute of Natural History, University of Pittsburgh-Bradford and is moderated by the Pennsylvania Biodiversity Partnership. The opinions expressed in messages are those of the authors and NOT the Pennsylvania Biodiversity Partnership.
