From: Natalie Novak nun1@psu.edu

PINBIOP extends an open invitation to all interested parties to attend the PINBIOP (Pennsylvania Invertebrate Biodiversity Project) Annual Meeting, December 5, 2002, 6:30-8:30PM, Days Inn State College, in the Logan/Harris room.

PINBIOP Mission Statement:

The Pennsylvania Invertebrate Biodiversity Project (PINBIOP) promotes documentation and monitoring of invertebrate biodiversity in Pennsylvania through research, publications, education and outreach programs, database development and coordination, and the identification and enhancement of taxonomic expertise within the state. PINBIOP supports recognized systematics collections of Pennsylvania's invertebrates, coordinates and prioritizes invertebrate biodiversity issues for Pennsylvania's state agencies and conservation organizations, and advises both the public and private sector on invertebrate management.

The Pennsylvania Biodiversity Listserve encourages open discussion about biodiversity issues in the state. It is hosted by the Allegheny Institute of Natural History, University of Pittsburgh-Bradford and is moderated by the Pennsylvania Biodiversity Partnership. The opinions expressed in messages are those of the authors and NOT the Pennsylvania Biodiversity Partnership.
